President Hiroyuki Onodera

Japan Audit and Certification Organization for Environment and Quality (JACO) has been engaged by Daiwa House Asset Management Co., Ltd. (hereinafter “the Organization”) to conduct independent verification of its environmental data prepared under the responsibility of the Organization. The aim of this verification is to consider the accuracy of environmental data and to provide a verification opinion.

The verification was conducted as limited assurance according to the procedure agreed with the Organization based on JACO’s verification standard in accordance with International Standard on Assurance Engagements (ISAE) 3000, “Assurance Engagements Other than Audits or Reviews of Historical Financial Information”. The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Summary of verification

With regard to the Environmental Performance Data of 211 assets for the fiscal year 2021 (from April 1, 2021 to March 31, 2022) and 215 assets for the fiscal year 2022 (from April 1, 2022 to March 31, 2023) reported by the Organization, verification was conducted.
