Notes:

- Net income per unit was calculated using the average number of investment units outstanding. Average number of investment units for the fiscal period ended August 31, 2005: 57,346 units (weighted average). Actual investment management for the fiscal period under review commenced on December 15, 2004. The figure for net income per unit in parentheses represents net income per unit calculated using the weighted-average number of investment units outstanding for the period commenced December 15, 2004 through August 31, 2005: 74,399 units.
- Changes in accounting policies: No
- Percentages are not shown for operating revenue, operating income, ordinary income and net income because the fiscal period under review is the first fiscal period.
- Annualized percentage figures for the fiscal period ended August 31, 2005 = Percentage figures for the fiscal period under review / number of days in the actual period of investment management (260 days) x 365 days
- Return on unitholders' equity, total asset and unitholders' equity figures used in ordinary income to total assets were calculated using the averages of these amounts at the beginning of the fiscal period and the end of the fiscal period. The beginning of the fiscal period is defined as the actual date on which investment management commenced, namely December 15, 2004.
