Mizuho Securities plans to borrow the Investment Corporation's investment units from the Lender to be sold in the event of over-allotment to a maximum of 1,456 units ("Borrowed Investment Units"). In order to affect the return of the borrowed investment units, Mizuho Securities shall be given by the Investment Corporation a purchase option of new investment units for the Greenshoe Option up to a maximum of 1,456 investment units, outlined in 2.preceding. The Greenshoe Option application period shall be calculated from the day following the close of the application period and extend for a period of 30 days thereafter (up to the immediately preceding business day in the event the 30th day is not a business day).

In addition, Mizuho Securities may seek to purchase the Investment Corporation's investment units up to a maximum of 1,456 units (the maximum number of investment units under secondary offering [over-allotment]) through the TSE (hereafter referred to as "Syndicated Cover Transactions") in order to affect the return of the investment units borrowed from the day immediately following the end of the application period through the exercise period of the Greenshoe Option (hereafter referred to as "the Syndicated Cover Transaction Period"). Moreover, in the period between the first business day immediately following the Offer Price Determination Date through the end of the application date, Mizuho Securities may undertake a Syndicated Cover Transaction and apply the investment units acquired under it to return the Borrowed Investment Units. In the event that during the Syndicated Cover Transaction Period, Mizuho Securities decides not to undertake a Syndicated Cover Transaction, or the number of units purchased under the Syndicated Cover Transactions falls below the number of investment units to be returned under the secondary offering (over-allotment), the Syndicated Cover Transaction may be deemed to terminate.

However, Mizuho Securities may exercise the Greenshoe Option in the event the number of units purchased under the Syndicated Cover Transaction falls below the number of investment units to be returned under secondary offering (over-allotment). On the other hand, in the event the secondary offering (over-allotment) is less than the maximum, or the secondary offering (over-allotment) is suspended, and a Syndicated Cover Transaction is undertaken, Mizuho Securities shall exercise the Greenshoe Option in connection with the reduced number of investment units subject to secondary offer (over-allotment). In this case, the maximum limit of investment units to be issued under third-party allotment shall be reduced and rights shall be forfeited, or the issue itself shall not be made.

Mizuho Securities will undertake the aforementioned transaction subject to discussion with Nikko Citigroup Limited.
